

Mallorca Cycling Tours – Bike Rentals and Sizes

There are many bike rental shops in the area around Port Pollensa, so you have many options. If you would like us to arrange your bike rental through one of our preferred suppliers, then this can be done subject to a 25 Euro admin fee (depends on how easily you supply your measurements!!), otherwise please book your bike as soon as possible. Some months are very busy and bikes are reserved 1 year ahead, especially April, May and September.

For some suppliers, we can obtain a discount from their advertised prices, so it may work out as a better deal for you. Where possible we try to arrange for your rental bike to be delivered or ready for you at the Hotel on arrival.

2023: Please Note - Due to the global situation, deposits and refunds on rental bikes are not as flexible as with accommodation and transfers, plus there are less bikes available. Due to these reasons, we would prefer clients to book rental bikes themselves (happy to offer some guidance), as then we aren't caught in the middle of any cancellation refund situations.
